The mission of the Chicago Zoological Society
is to inspire conservation leadership
by connecting people with wildlife and nature.

What is a Family Play Zoo?

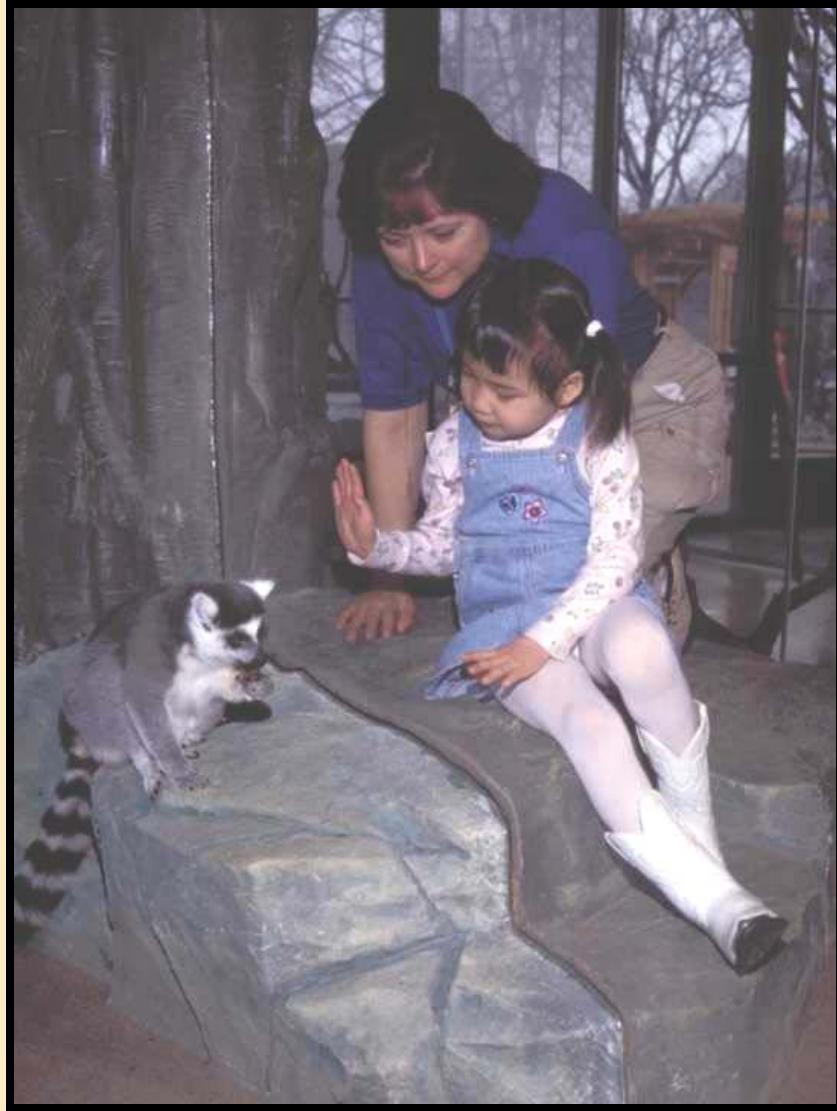

“The experience of childhood is increasingly urban. Over half the world’s people – including more than a billion children – now live in cities and towns.” – United Nations special report, *Children in an Urban World: The State of the World’s Children, 2012*

Questions Driving the Development of the Hamill Family Play Zoo

- What is known about developing connections to nature and inspiring action?
- How can this be applied within Children's Zoos?

Conservation Psychology is...

The scientific study of the reciprocal relationships between humans and the rest of nature, with a particular focus on how to encourage conservation of the natural world. (Saunders, 2003)

Significant life experiences for adult conservation behavior (*Chawla, 1998*)
